

OUPS - Ohio Utilities Protection Service

Call Before You Dig...

The Village of New Richmond is a member of the Ohio Utilities Protection Service (OUPS). Please call 1-800-362-2764 (www.oups.org) before doing any digging, so underground utilities can be marked. The Village will be notified of your request. Contact with underground utilities can be dangerous as well as costly.

The Ohio Revised Code states that you are responsible for calling OUPS 48 hours, but no more than 10 days, before digging. This excludes Saturdays, Sundays, and legal holidays.
