**Mail feedback:**  
Attn Bob Lindhorst  
102 Willow Street  
New Richmond,  
OH 45157

**Project Description**

The Village of New Richmond is making a conscious effort to improve its riverfront. We want to hear from residents for additional feedback relating to the concept discussed this evening. Goals established by the Village include the following: establishing the riverfront as a destination, provide connections to the river physically and visually, reinvigorate Front Street with events and activities, create opportunities for people to engage and view the river, provide an attractive, welcoming setting, and to construct a durable and easily maintained design.

**Comments**

Your feedback is important to us, please write any comments, opinions, or knowledge about the needs and recommendations for the New Richmond Riverfront Master Plan.
